Red Cross Drive Nears Close; Goal Still Short

Approximately \$3,300 has been turned in to local Red Cross collection offices, according to Guy E. Farley, at whose office solicitors have turned in their reports.

While the drive ends this week, Mr. Joaquin Payne, chairman of the local chapter, and Clarence Nelson, general chairman of the Campbell drive, urge the few solicitors who have not made complete returns to do so as soon as possible.

Officials also urge that citizens who have not been contacted or who have not made contributions may still do so. Contributions will be accepted during the week and next, according to Nelson, and may be turned in to Guy Farley's office, corner of Campbell and Central Avenues.

Most merchants still display containers, into which contributions may be dropped.

PG&E COMPLETES TAX PAYMENT TO COUNTY

Santa Clara county property tax payments for the 1951-52 tax year completed today by Pacific Gas & Electric Company total \$981,272, T. W. Snell, manager of the company's Santa Clara division, stated.

The company, by far the largest single property taxpayer in California, made property tax payments for the year totaling \$29,517,494 to cities, counties, school districts and special districts in 48 counties in which it owns property.

Federal and state income taxes and other federal, state and local taxes amounting to \$36,348,321, brought the company's tax bill for the tax year to \$65,865,815.

PG&E paid about 43 percent of its total property taxes, or \$12,617,120, directly for the support of public schools. Taxes for county purposes totaled \$13,334,092 and payments to city governments amounted to \$2,149,821. Taxes levied by various other districts totaled \$1,416,461.

"These are significant figures. They show how business-managed companies help ease the local tax burden, and how, by their contributions, they help support necessary schools and local government. PG&E pays more than half of all property taxes in some counties," Snell said.

PG&E's property taxes in Santa Clara county include \$343,535 for county government, \$488,367 in support of public schools, \$42,014 in other district taxes and \$107,356 paid to cities.

Eight bids were submitted, ranging from a low of \$119,980 to \$144,433.

Campbell School District Accepts Bids For Projects

Two low bids on new building projects for Campbell Union school district have been sent to State Department of Finance for final approval this week. The projects are for completion of a cafeteria, construction of a shop and music rooms at Campbell Grammar School and classroom completions and construction of a multi-purpose room at San Tomas school.

Lowest of the eight bids on the Campbell project was Nielson and Nielson of San Jose. Bids ranged from \$131,725 to \$144,133. Lowest bid on the San Tomas project was \$119,980 submitted by Alken Construction Co. of San Jose. Seven bids ranging up to \$129,856 were submitted.

District Superintendent William C. Henley said completions on both projects are expected to be finished by the time school opens in the fall. New rooms will not be finished until sometime in November.

Henley also announced several new appointments made by trustees at the board meeting held last Thursday. Ann Meridier and Duane Beaubien have been made vice-principals at Campbell Grammar school. Both are on the school faculty at present. Thelma Wathen, also on the present teaching staff, has been named special district teacher for art. Henrietta Wehrli, of the Campbell staff, has been added to the district speech teaching program and will assist the present speech teacher, Eda Belle Little.

Lois Hoyt, Moorpark teacher, was named viceprincipal for the Moorpark school, and district psychometrist.

EASTER SEAL DRIVE QUOTA OVER THE TOP

A check from Los Altos Union Church Sunday school helped put Santa Clara County Crippled Children's Society's 1952 Easter Seal campaign over its \$200,000 quota, according to drive chairman Patrick H. Peabody.

The check, for \$70.68, represented an Easter offering from the Sunday school.

Exceeding the quota, which, from indications will be the case, will enable the society to proceed with much hoped for project, expanding the sheltered workshop," said Mrs. M. D. Baker, county society president.

"Sheltered workshop makes it possible for severely handicapped young people whose disabilities bar them from regular employment to make a small income doing subcontracting work on a piecework basis. Freed of the pressure of competition, they can work according to their individual capacities," Mrs. Baker said.

To Hold Open House Next Week

Campbell Union School District will observe Public Schools week next week with open house during the evenings. Campbell Grammar school holds an open house Wednesday night from 7 to 9 p.m. Principal Dorothy Royce says parents are invited to visit the classrooms to see displays of pupils' work and meet the teachers.

Open house at San Tomas and Moorpark will be held on Thursday evening, starting at 7:30. Principals Marc Swengel and John Duncan invite all parents to meet and visit with the children's teachers. Interested parents have also been invited to visit classrooms at any time in the regular school day.

Mrs. Gussie Baker, principal of Moreland Elementary School, extends a cordial invitation to parents, children and public to see new classrooms and buildings any time at parents' conveniences, but these times have been set aside and special demonstrations will be given.

DAVID C. KIRBY OUT FOR SUPERIOR COURT JUDGESHIP

Atty. David C. Kirby, 43, announced his candidacy recently for Superior Court judge in Santa Clara county in the June 3 primary election. Other candidates for the office are incumbent Judge William F. James, 80, and Atty. John W. Montgomery, 45.

A native Californian, Kirby received all of his education in Santa Clara county schools, including San Jose State and U. of Santa Clara, where he received his law degree in 1933. He has practiced law in San Jose for 19 years and is now senior member of the law firm of Kirby, Pasquini, and O'Connor.

Urged by his friends to run for the judgeship, Kirby believes that he has the physical fitness, maturity, and experience necessary for the position. He regards the office as a challenge to the qualified person with many active years ahead to devote to the welfare of the county.

"Since Santa Clara County has grown from a population of 174,949 in 1940 to one estimated at 331,100 in 1952, almost double, the calendar of the Superior Court, the basic and most important law court in the county, has become increasingly crowded. For a judge to cope with these conditions and serve the best civic and humane interests of the community, he must have both physical vigor and qualified training," Kirby says. "As a candidate for the judgeship, my years of law practice handling both civil and criminal cases, in close contact with daily problems of living, have given me the experience needed in making decisions and guiding juries in their deliberations. I feel that I am old enough to have the maturity of judgment and wisdom to interpret the law justly, and young enough to carry a heavy program successfully. With our country's tremendous growth, a judge must have this potential of service. This, qualified by both age and experience, I feel I have."

Besides his law practice, Kirby has been active in many county service clubs and philanthropic projects. He is past president of the San Jose Kiwanis Club, past lieutenant-governor of Kiwanis International, past vice-president of Santa Clara County Bar Association, and chairman of the advanced gift division in O'Connor Hospital Building fund campaign. A member of San Jose Elks Lodge, he is a past president of St. Joseph's Dad's Club and was a delegate to the San Jose Council of Dad's Clubs. He has served both the Community Chest campaigns and Santa Clara County Boy Scout Council.

Kirby, his wife and their three children live in Los Gatos. John, 13, and Julie, 12, attend Saratoga Elementary School, while Catherine, 15, is a sophomore at Los Gatos High School. His father, David Kirby, retired employee of Bank of America, resides in San Jose, as do two sisters, Mrs. P. J. Boggini and Mrs. Harold Moriarty, and a brother, William.

Warren Signs County Flood And Water Bill

Senator John F. "Jack" Thompson reports that he has just received word from Sacramento that Governor Warren has signed the bill introduced by Thompson during the last regular session of the Legislature. The act was amended to take the existing water conservation districts out of the county-wide district at that time. The act was amended during the special session of the Legislature which adjourned April 4, and the amendments placed the water conservation districts back in the county-wide district. The amendments were those agreed upon by the existing water conservation districts and other officials in the county who objected to some of the provisions of the bill as it was introduced.

Thompson states that the flood conditions of this past winter brought out the need for a county-wide district which can be set up in zones as the act provides to take care of our flood problems, and the ultimate development of future water conservation.

Rotary Sees Film On Guide Dogs For The Blind

Rotary members at their last regular meeting enjoyed an informative and interesting film and demonstration relating to the care and training of guide dogs for the blind.

The movie depicted the training both men and dogs receive at the San Rafael training school and illustrated how closely man and dog must work in order to overcome the hazards in a crowded city for those who cannot see.

An interested spectator was Mrs. Richard W. Morton.

Fred Jones was in charge of the program.

LOCAL ROTARY MEETS WITH SANTA CLARA

Campbell Rotary members joined with Santa Clara and Los Gatos Rotarians in a joint business and social gathering in Santa Clara last Thursday. Guest speaker was Mr. Harry Wragge, personnel supervisor of the General Electric Corporation, whose topic was "Hobso"—"How Our Business System Operates."

Ellis Howard presided, and Paul Dias, was chairman of the day's program.

In Wragge's talk, the subject of which is given to all employees of the General Electric Corporation, he pointed out the importance of competition in the American system of free enterprise, and showed just what that system had accomplished through the years in establishing in America the highest standard of living in the world.

Wragge showed the contribution of G.E. in this system—a business with 250,000 stockholders and a \$1,950,000,000 gross income.

Other Rotary news includes a notice that a district conference will be held the latter part of the week of April 20. The 43rd annual convention will be held in Mexico City, Mexico, May 25-29. A number of members are planning to attend.

County Taxes Up 259 Per Cent In Ten Years

Property taxes in Santa Clara county have gone up 259 percent in the past ten years, California Taxpayers' Association said today.

The property tax levy for general county purposes has gone up 206 percent from fiscal 1943 to fiscal 1952.

The levy for municipal government purposes has gone up 213 percent.

For school districts, the levy has gone up 318 percent.

For special districts, the levy increased 384 percent from 1942-43 to 1951-52.

Statewide, property taxes have gone up 169 percent from 1942-43 to 1951-52. County levies are up 145 percent; city levies up 108 percent; school district levies up 236 percent; and special district levies on property up 185 percent.

Property taxes are a major source of support of local government in California, the Taxpayers' Association said, pointing out that subventions, shared taxes, other kinds of taxes such as the sales tax, and licenses and fees also are used to finance local government activities.

Gas Tax Funds based on a 6693 population figure prorated at 72-75 per capita, according to a letter read by Mayor Richard Morton from J. P. Dietrick, State Division of Highways.

Dietrick's letter was in answer to an earlier letter from the mayor suggesting a waiver of the April allocation until a corrected higher population count had been compiled by Eber Tarlton, county registrar of voters. In his letter, Morton had asked a waiver of the state allocation of the April gas tax payment in order to benefit from the higher registered voter count for the June allocation of the in lieu tax. This would have amounted to a \$5,500 increase in money paid to Campbell.

Dietrick's letter said, according to Morton, that the population figure had to be figured from March 28 (the date of incorporation) and that figure would be the basis for all future allocations for the City of Campbell. A population figure cannot be changed except by federal census, the letter as read by Morton went on to say.

BUILDING CODE ADOPTED
Campbell now has a uniform building, plumbing, Gas and Electric code adopted Monday as an emergency measure, which makes it effective immediately.

The code was adopted as presently effective for Santa Clara county except for a rural clause which exempts property of 2½ acres or more used for agricultural purposes from the usual permit and fee requirements.

Copies of the ordinance are on file at the residence of City Clerk Mrs. Viola Krug.

This ordinance adopts by reference, the national Electrical, Gas and Plumbing Codes. This measure will also provide the most immediate source of funds for the city, it was pointed out. Money will be used for administrative purposes, the council agreed.

COMMITTEES APPOINTED
Committees appointed by the Council, headed by Mayor Morton, were the following: Finance and Licensing, James B. Arends Jr., chairman; Dr. J. Frederic Snyder and Joseph Gomes, Ordinance and franchise, Gomes, chairman, Joseph M. Dahl and Arends; Public health and safety, Dr. Snyder, chairman; Dahl and Arends, Streets, Sewers, Lands and Parks, and Public Structures, Dahl, chairman; Dr. Snyder and Gomes.

The council referred to the public health committee the matter of civilian defense and referred to the County Planning Commission the proposed extension of Central Avenue by Louis E. Smith.

City Attorney fixed bonds of \$10,000 and \$5,000 for City Treasurer E. C. Merrill and City Clerk, Mrs. Krug. Officials concerned were directed to select own bondsmen and submit charges to the City.

Nestor Barrett, formerly of the Santa Clara County Planning Commission, was invited by Mayor Morton to submit to the council material relative to enacting an interim zoning ordinance. This ordinance would be in connection with a master zoning plan for the City of Campbell, the mayor pointed out.

Present at the meeting were Councilmen Dahl, Arends, Gomes, and Snider, in addition to Mayor Morton.

Campbell Union Elementary School District will have its first business manager with the appointment of Mr. C. E. Bradley, William C. Henley, Campbell district superintendent, announced.

The appointment becomes effective May 2. Bradley formerly was associated with Owens-Corning Fiberglas Company as assistant purchasing agent.

The dinner was quite successful, with an attendance of 169.

Cheaper By Dozen Books Reviewed

Informal and entertaining book reviews by Mrs. Robert E. Barney (Ann Gilbreth), a surprise announcement by Dr. Lynn T. White Jr., of Mills College, and an exhibit of college students' art work comprised the afternoon arranged by Mills College alumnae for their friends and guests at a program tea last Thursday afternoon at the Villa Montalvo in Saratoga.

Mrs. Barney, eldest of the "Cheaper by the Dozen" family, first discussed "Living With Our Children," by her mother, Lillian Moller Gilbreth.

"I'm A Lucky Guy," by Frank Gilbreth, Jr., tells the story of her brother's life from his entrance into college until he resumed civilian life as a journalist after serving in the Navy in Pacific waters during the war.

The surprise announcement came during Dr. White's introduction of Mrs. Barney, when he revealed that her mother, Lillian Moller Gilbreth, will be awarded an honorary doctorate degree at Mills in June at its centennial commencement. Dr. White pointed out that the honor was not being presented because of Mrs. Gilbreth's large family, but rather because she represented in a high degree qualities which Mills College feels that women should endeavor to develop.

Before the program and while tea was served from flower-laden tables, guests observed the display of student art work from Mills: photography, paintings, ceramics and weaving. This exhibit was held over for at least ten days in the gallery at Montalvo.

SHE'S THE SAFEST LADY ON THE ROAD

With Chrysler **POWER STEERING** plus Chrysler **POWER BRAKES**

At the wheel of a new Chrysler, you have quicker, surer control of motion than you've ever had in a car. You can't imagine what it's like till you drive it! With this full-time power steering, hydraulic power does 4/5 the steering work at your gentle pull on the wheel! You also turn the wheel 1/3 less distance. And on rough roads, soft shoulders, snow or sand, "wheel fight" just doesn't happen. Your hand actually has five times the usual steering control, through every minute of every mile... with the same sure "wheel feel" at all times!

With this safer way to steer, power brakes make stops at all speeds safer and easier, too. Power from the engine "boosts" every touch of your toe. Actually you stop with up to 2/3 less foot pressure than non-power brakes. You can bring your Chrysler to a halt from full speeds in many feet less distance than other cars of comparable size can stop. See your Chrysler dealer soon. Feel for yourself why thousands of owners say Chrysler offers the two greatest advances in many years in driving safety and driving ease!

HO, HUM - SPRING IS HERE AGAIN

Now that the weather has settled down to the sunny California normal we are beginning to realize that spring is really here. And quite welcome, too!

That certain pleasant fever for which compete rest or a good baseball game is the only cure, and the far-away look which affects the eyes are common symptoms of the season. But it's also a time for a bit of doing on things that could not be done when it was rainy and cold.

The fence needs fixing and a little paint would brighten the house. Then there's the roof. That must be repaired before wet weather comes again. And as for the kitchen improvements—they're long past due.

Well, better get busy. There's no time like spring for clean up and fix up. Maybe you can't or don't want to do all the work yourself, but there are lots of able tradesmen ready to help. (Take a look at the ads.) And if you're short of cash the bank will finance the work for you. Give you plenty of time to pay it back, too. All of which doesn't leave much expense for not getting started.

There's always one sure compensation in improvements — the satisfaction and pride in our home and community.

Nothing quite like it.

Glass Mountain, in Siskiyou County, is estimated to contain one of the largest deposits of obsidian in California, if not in the United States.

Spring Showers Can Help Flowers If Used Right

California gardeners, Campbell ones in particular, should bear in mind two problems that must be faced concerning our problematic rainfall: How to conserve the rain that actually falls, and what to do with sudden downpours, such as cloudbursts.

Rain that washes over the surface of your property and rushes down to your neighbor's garden is a complete waste to you. Not only are your plants denied their drink but topsoil may be washed away, which your neighbor, finding it on his lawn, may not appreciate.

The problem is to insure maximum benefits for your garden, while excess water drains properly from your premises.

It is possible to increase the porosity of the soil so that water will sink in by adding humus to the soil. This is available as peat, leaf mold, straw manures and often bean straw. Within certain limits, the more humus worked into the soil, the better.

Catch basins should be constructed around trees and large shrubs, especially in lawn areas. Trees require a great deal of moisture and an adequate catch basin one to two feet across and a few inches deep will make the most of any rainfall. Keep it clear of all vegetation.

Cultivating after a rain is also valuable. Wait until the soil has mellowed somewhat. Cultivation prevents crusting on the surface, provides a dust mulch, encourages aeration and kills weeds.

Exact Heavy Toll From Citizens

Twenty-five thousand brand new \$12,000 homes... a market basket piled high with \$32 worth of food for every man, woman and child in the state... 1,500,000 new television sets.

Californians could have had any one of those things last year with the \$324,710,000 they spent in paying the price for traffic accidents, the California Highway Patrol reported today.

The multi-million dollar accident bill is based on National Safety Council figures fixing the average cost of a single traffic death at \$95,000. California's 1951 traffic death toll was 3,418.

Also included in the \$95,000 "per death" figure is the cost of 35 injuries and 225 property damage accidents, based on the statewide ratio of fatalities to total accidents.

Costs of the items making up the \$95,000 are \$21,800 for the death, \$950 for each of the injuries, and \$180 for each of the property damage accidents.

Accident costs include wage loss, medical and hospital expenses, repair or replacement of damaged property and overhead cost of insurance, but not money paid on insurance claims.

FAB Spray Center, New Campbell Business, Opens

Mr. Baker Longest is owner-manager of a new upholstery and furniture renewing business called "Fab-Spray Center" on the site of the former "Grab Bag," 48 E. Campbell Avenue. Mr. Longest says his product is brand new and his store will feature the new Fab-Spray process for the first time.

Longest formerly sold linoleum in the Campbell-Los Gatos area with Lee's Linoleum Co., and says he is familiar with the area and tastes of his customers. He said he thought Campbell, as a growing community, would attract many more small businesses.

Longest says he plans to remodel the old building and to build showrooms to make his shop and product more attractive to his customers.

Longest, former Texan, has been living in San Jose, but says he may move into Campbell.

CAMPBELL AREA PERFECT FOR FUCHSIA PLANTS

Fuchsias can be grown almost to perfection in the Campbell area, and now is the time to set out new plants, especially the hanging basket variety.

The plants can stand a goodly amount of sun in the morning hours or through the day if protected by lath or if the sun's rays are filtered through leaves of trees.

They can be trained to lie flat against a wall or trellis or the upright varieties can be used as foundation plants on the east or north exposure of the home.

Key requirements for vigorous plants are: soil mixed with well-rotted manure, or if soil is adobe or clay, the addition of gypsum, plus an acid fertilizer if soil is alkaline.

Frequent watering preferably in the early morning. A thick mulch around the base of the plants will help considerably.

Protection from direct rays of sun is essential especially after 10 a.m. in this area.

Plants must be fed during the blooming season applied so as not to burn the root of the fuchsias. You should water a day ahead of feeding the plants and again after the fertilizer is applied.

Hanging basket fuchsias should be watered and fed more often than those planted directly in the garden because the water drains away from the root zone quicker and plant nutrients are leached away.

Summer Training Key To Garden Growth Control

It doesn't take a beginning gardener long to reach the point at which he wishes he knew as much about holding a plant back as he does about making it grow. Summer pinching of new growth is an easy way to train a tree or vine to any shape or pattern.

First pinching unwanted branches should take place after four or five inches of growth. Direction of growth may be controlled by pinching to lateral buds or shoots growing in the desired direction. A pinched tree will produce fruit earlier than one that is given only dormant pruning.

Other methods of reducing top vigor and encouraging fruiting are girdling, bending or twisting. Girdling is done by making knife cut to the wood completely around the stem. Bending or twisting to break the bark tissues has much the same effect of restricting food movement to the roots. Complete directions for these processes are given in the May issue of Sunset magazine.

BUCS TAKE LEAGUE LEAD WITH 11-6 VICTOR YOVER CENTERVILLE HUSKIES

A fourth inning eight-run rally made the difference in an 11-6 Buc win over the Huskies from Centerville last Friday. The win gives the local nine a 2-1 win-loss league standing to place the George Miskulin coached club number two in the SCVAL standings.

Trailing 6-3 in the final frame of the sixth, the Bucs snapped out of their lethargy to stage an eight-run scoring spree that broke the back of the Husky attack.

Duane Burrow and Bob Cook, with two hits apiece, led the Buc batmen. Cook added to the fourth inning drama by stealing home safely.

Box score:

	AB	R	H
Rhodes	3	2	1
Burrow	3	2	2
Farruggia	2	0	0
Shumway	0	1	0
Probst	2	0	0
Pereira	4	0	1
Cook	4	1	2
Sutton	2	1	1

JV NINE LOSES TO WASHINGTON

Although the varsity nine beat Washington (for the first time in Campbell High history) the JVs lost a 3-2 verdict to the Washington leftovers for their fourth consecutive loss. Oik, of the Huskies, threw a two-hitter at the weak-sticking Bucs.

The Dogs scored their three runs in the first inning off starter and loser Wayne Lee. The boys from Alameda County used two doubles, a single and an error to score three runs.

Lee was relieved in the third inning by Paul Zimmerman, who held the Huskies scoreless the rest of the way.

Hitters for Campbell were Lou Nunez and Ron Citta. Ron Davis stole three bases as did Stefans of Washington.

Rutherford Rites Today For Stanford Museum Curator

Rutherford Funeral Home will conduct services at 1:30 p.m. this afternoon for Francisco B. deLemos, popular assistant curator at Stanford University Museum and Art Gallery until his retirement in 1945.

He also had charge of the installation of the exhibitions of painting and handicrafts displayed at the Art Gallery. He is remembered locally for his personally conducted tours of the gallery to Campbell's women's clubs, and for his many lectures given to Campbell organizations.

Mr. deLemos had a part in the organization of the Palo Alto Art Club and at the time of his death was on the club's board of directors.

Surviving are his wife, Grace, a daughter, Dorothy, and son, David; brothers, Pedro and John, and a sister, Mrs. Edna Ford, all of Palo Alto.

You know, people can't always get to the telephone to answer it the moment it rings. They may be busy in the garage, or the basement, or some distant part of the house. That's why you'll so often save yourself the disappointment of an incomplete call if you give them plenty of time to answer ... at least a full minute. You'll not only often save yourself the inconvenience of calling again later, but waiting those few extra rings is a courtesy your friends will appreciate when they can't answer immediately.

Baptist Church To Hear Ex-Nazi

Edward Meier, former Nazi soldier, will be the featured speaker at next Sunday morning's service of the First Baptist Church of Campbell. Mr. Meier was an interpreter for the Intelligence Division and speaks four languages; his English is excellent, but was learned within the last two years, since he came to the United States.

The young speaker was born in Bulgaria, which was overrun by the Nazis while he was still a child. At the age of 16, in 1940, he was inducted into the German Ar-

my and indoctrinated with the Nazi philosophy; Hitler became his god. When Hitler and his regime fell, Edward's ideology was shattered. He was lost, and he states now that he was on the verge of suicide. Then he found Christianity. He came to America and entered the Bible Institute at Los Angeles, where he is still a student. Mr. Meier will tell his dramatic story, with its Christian import, at the "Youth For Christ" meeting in San Jose Saturday night. He will speak to the Sunday School of the First Baptist Church of Campbell as well as to the congregation at morning worship. The public is cordially invited to hear him.

On Saturday evening at 7:30, young people of the First Baptist Church will meet for a time of fellowship. Chalk talks and object lessons will be presented by the Reverend Lyle Cushman. Refreshments will be served. Newcomers will be welcomed.
